

Friends & Supporters: Elements of a good day...

1) Mineral water and a great motorcycle mag...

2) Anchovie pizza...

3)Visions of the worlds most beautiful car (antique Corvette)...

4)Tule fog at my campsite (wide-angle view, daybreak)...

Note that Tule fog is very "dense" yet extremely "thin".

In the below pic, you can see that the Tule fog is less than "one tree tall"...

5)Tule fog (telephoto/daybreak) at my campsite...

Sad day: I must head south to attend a memorial service for a wonderful young man, now lost to the world forever.

This will take me away from Truckee for a week, thank all of you for your support and feedback during my glider-summer :-)
